MEMORANDUM FOR: Director of Central Intelligence

FROM: Deputy Director of Operations

SUBJECT: Commerce Department Utilization of
Directorate of Operations Reporting

1. Attached as of possible interest is a copy of the December 1981 monthly report from the Office of Intelligence Liaison of the Department of Commerce citing Directorate of Operations reports that were of use to the Department. It is a good example of the regular monthly utilization by the Commerce Department of DO reports. You will note that a significant number of clandestine reports were categorized as of "particular significance" to the Secretary, Deputy Secretary and Under Secretary. Many additional reports, the preponderance [redacted] are listed as of value to other senior Commerce Department officials. Input such as this is routinely processed by our Evaluation and Program Design Staff for its semi-annual "Directorate of Operations FI Reporting Evaluation."
